WHY CHOOSE VENUS FOR YOUR INSTITUTION NEEDS?

- Manufacturing Capabilities on Both Coasts
- Ability to Provide Various Colors in Any Size
- Quick Turnaround on Custom Orders
- Quality Products at Competitive Prices

I

INSTITUTION

VENUS GROUP INC.

Venus Group is a privately held family business founded in 1972, and headquartered in Orange County, California, with over 600 employees worldwide and a cut and sew operation, as well as distribution center in Fort Lawn, SC. At Venus, the utmost importance is placed upon the quality of our products to ensure that these products are designed and produced to meet the expectations of our customers. We do this with a winning combination of design, technical expertise and our worldwide, state-of-the-art manufacturing facilities, while maintaining safe, responsible, and sustainable processes. Our in-house design studio in Foothill Ranch, award winning designers, and over 20 textile engineers worldwide ensure that the quality of our products are consistently maintained. They bring enormous value to our customers and our markets through innovative development and cost effective manufacturing. At Venus, we are committed to promoting business practices that are consistent with environmental policy and providing Smart Solutions for a Better World™. Our initiatives start with vertical manufacturing processes to inspire the development of innovative and smart eco-friendly consumer products.

VENUS INSTITUTION

The Institution Division began operations in 1972 to serve the institutional laundries with long lasting laundry friendly textiles. Manufacturing from our own vertical mills in India as well as our joint partnerships in several textile producing countries, has given Venus the quality products needed to provide exceptional value for our clients.

Milliken®  
Signature® Plus  
Table Linen

Milliken's® innovative Signature® Plus fabric outperforms all challengers in terms of elegance, performance, quality, durability and value. Signature® Plus has the same soft feel and sophisticated look of original Signature®, with dramatically improved soil release—that means a much longer shelf life with significantly fewer stain rejects. The innovative stain release properties of Signature® Plus can allow you to wash at a lower wash temperature. And you'll still have the same consistent look day after day. If you've been looking for the premier table linen fabric in the industry, then Signature® Plus is for you.

Signature® Plus is the same fabric as Signature®, but with much improved soil release properties. With such a significant upgrade to an already premier product, Signature® Plus offers a better return on investment than cotton, spun or blends.

\*All colors may vary and are only a representation of the physical samples. White is included.

Milliken®  
HORIZON™  
Table Linen

White	Ivory	Sandalwood	Maroon	Black

Milliken's® elegant Horizon™ Banquet Tops are the ideal table fabric for larger settings, whether formal or casual. This versatile 120" and 132" banquet-style cloth is seamless for uniformity and comes in 5 popular colors—black, white, ivory, maroon and sandalwood, matching identically with the same colors in our Signature® line of table linens. Horizon's™ unique composition offers unparalleled performance yielding a durable, long-lasting table linen that won't shrink, fade or lint. And because it's made by Milliken®, it comes treated with Milliken's® proprietary soil release chemistry, adding yet another performance advantage.

\*All colors may vary and are only a representation of the physical samples.

TABLE LINEN

Milliken®  
Damask HD™  
Performance Table Linens

Revolutionary advancements in yarn and fabric construction make Damask HD's™ bold designs pop like never before. High-luster designs create a bolder, more distinct color effect with higher contrast. Plus the spun/filament fabric creates the soft, natural feel of cotton without sacrificing the performance you've come to expect from Milliken® Table Linens. But good looks aren't the only thing Damask HD™ brings to the table. Lab tests show that high-performance Damask HD™ retains its pattern and color definition four times longer than cotton and polyester/cotton blends while resisting pilling and shedding.

BENEFITS

- Damask HD's™ high luster designs create a bolder, more distinct color effect with higher contrast.
- A spun/filament fabric that combines the soft, natural feel of cotton with the performance and durability customers expect from Milliken® Table Linens.
- Offers elegant looks and clarified patterns while retaining durable, pill-resisting qualities.
- Patented soil-release technology.
- Retains pattern definition and color after numerous launderings.
- Lab tests show that the color of Damask HD™ lasts longer than most cotton and polyester/cotton blends.

\*All colors may vary and are only a representation of the physical samples.

# TABLE LINEN

## Milliken® Signature® Stripe Table Linen

Milliken's® Signature® Stripe is a bistro style napkin, made with 100% Signature® Plus fabric to give it that soft feel with minimal linting and the soil rejection quality that has become an industry standard. Available now in 16 colors, the yarn dyed stripe stays true even when bleached which means that you can wash it with white Signature® or with white aprons and you have to replace your linen less frequently.

Low minimums for new colors.  
Size is 18 x 22.

			
White	Yellow	Gold	Orange
			
Sage	Lime	Kelly Green	Belize Blue
			
Blue	Purple	Metallic Gray	Chocolate
			
Raspberry	Red	Maroon	Black

\*All colors may vary and are only a representation of the physical samples.

## Lattice Placemats

BED LINENS  
Performance Twill®

Venus Group’s patented sheet made of premium cotton and textured polyester yarns provides the luxury, comfort and softness of cotton along with the strength, durability and easy care of polyester. Our sheet’s unique combination of weave, pattern and thread density brings in superior dimensional stability and abrasion resistance to withstand rigorous wash and use conditions. Performance Twill® has been wash and use tested over 200 commercial launderings without showing any evidence of pilling, linting or drop in tensile and tear strengths.
